

Le Mas de la Tour , Provence

A GLASS AND STONE TOWER

Le Mas de la Tour is a modern residence in the heart of nature, belonging to one of the most beautiful french villages in Provence. This property is near a highway leading to Lubéron and all of the commodities of the village such as Pernes les Fontaines. Le Mas de la Tour is not isolated, but rather situated in a favourable location, in a residential area.

Overlooking a rocky and a greenery canyon, le Mas de la Tour invites you to a one of a kind stay.

Evoking the roman fortifications of Venasque village, this stone tower will seduce you with its strong contrasts:

- Contrast between an abundant wild nature and the luxurious indoors
 - Contrast between towering walls of rough stone and the large windows looking like watchtower windows
 - Contrast between a vertically high building and a breathtaking panorama as far as the eye can see
- Your stay at Mas de la Tour will allow you to discover or rediscover the Provence and the Comtat Venaissin from an unseen angle
